ORGANIZED BY

Sheridan SSU 

date

February 5 – 7, 2021

location

Virtual
(spiritually at Sheridan College)

contact

sheridanhackville@gmail.com

what is a hackathon?

A hackathon is a sprint-like competition where students can come together to solve real-world challenges using technology.

They present challenging problems, elicit innovative solutions, include insightful workshops and speakers, as well as direct networking & mentorship.

about Hackville

Sheridan College's first virtual hackathon and second student-organized hackathon will take place on February 5th – 7th, 2021, and will last 36 hours.

The competition will be open to 120 students from all colleges and universities. Hackademics is currently seeking sponsorship for our 2nd annual event.

what is Hackademics?

Hackademics is a student club for students who love the challenge and innovation that comes with the hackathon experience.

We aim to help top-performing Sheridan students network across faculties while sharing knowledge and experience.

inspire, recruit, and influence

As a sponsor of Sheridan's second hackathon, you will be directly helping to *influence the future generation* of innovators.

As a sponsor, you are highly visible throughout the marketing, duration, and aftermath of hackathons. You can have direct interaction with our dedicated students through mentorship, workshops, or more.

sponsor us

***Our event is your event*, and we need your help to support our students.**
